

Application for new membership of DA Society

The following procedure has to be fulfilled in case of a new applicant for the membership of DA Society:

1. A country – through an Engineering and Scientific Society, which has an Experimental (material Science) Department – expresses the demand for the membership of DA Society. (According to the Statute regulation of DA-Society, each country has only one nomination possibility, see paragraph No. 1.).
2. The applicant Society has to be introduced itself with a short description of the activity, number of society's members, what they consider to be important for publication about their activity.
3. The applicant Society is obliged to declare the acceptance of the Statute regulation of DA Society (the Statute of DA Society is introduced at the website: <http://das.tuwien.ac.at>).
4. The applicant Society must nominate 2 official candidates for the Scientific Committee of DA Society.
5. The new candidates for the membership of DA Committee have to give an introduction to their scientific activities in the field of Experimental Mechanics.
6. It would be desirable to introduce their former activity in the field of DA Symposium, summarized by the participation activity on our events.
7. According to the regulation of the Statute of DA Society (paragraph No. 3.), the new application has to be introduced till the date of the actual Spring Meeting (at the beginning of May of the current year) of DA Society, sending the necessary documents to the President of DA Society.
8. The decision about the new membership – according to the Statute regulation (paragraph No. 3.) is the task of the Autumn Committee Meeting.
9. The notification about the decision of the Committee is the task of the existing President of DA Society.
